

FEES

What is deducted from donations

The **fee charged by your financial service provider** will be deducted from your donation. Then when the project is successful (and not before!), a handling fee for Crowdify.net will also be deducted.

The following fees will be deducted from your donation and will not go towards the project:

For the **Payment Service Provider (PSP) service** Crowdify.net deducts 0.50 excl. VAT from each transaction. Additional fees depending on the method of payment:

Twint: 1%, excl. VAT

Postfinance: 2%, excl. VAT

Credit cards (VISA/MasterCard): 1% excl. VAT

Paypal: 2.9% + 0.55 per transaction, excl. VAT

SMS: 8%, excl. VAT

(General rule for SMS donations: maximum of 99.00 per donation and only available for numbers from Swiss telecom service providers. If a donation is made in euros, the amount will automatically have been converted into Swiss francs in the SMS confirmation.)

If the project is successful, the above mentioned payment fees are included in a flat-rate platform fee of 9% (resp. 11% for crowdfunding in stages). If the project fails, the payment fees are deducted from the refund of your donation, but no other platform fees are charged.

Updated June 2019, amounts in CHF (Swiss francs)
